Art Unit: 1722

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-13, drawn to a method of making a silicon micro-mold, classified in class 430, subclass 320.

II. Claims 14-20, drawn to a silicon mold, classified in class 249, subclass 114.1.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as a process wherein the channels or shapes have features with lateral dimensions of 1 micron or greater.

Art Unit: 1722

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. An attempt to call Timothy Evans (Applicant's Representative) at (925) 294-3960 was made on January 23, 2004 to request an oral election to the above restriction requirement, however the given telephone number did not appear to be correct. Applicant is requested review, and if necessary, update the contact information for the instant application.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Heckenberg whose telephone number is (571) 272-1131. The examiner can normally be reached on Monday through Friday from 9:30 A.M. to 6:00 P.M.
